TATTOO REMOVAL AFTER-CARE AND INFORMATION

It is critical to follow all aftercare instructions to prevent complications, scarring and to achieve optimum results. Please read carefully.

- Keep area clean and open to the air. Do not cover with a Band-Aid or anything else, leave open to air. Air/oxygen provides good and faster healing. You should not be touching the area at all but if you find yourself needing to, please make sure your hands are exceptionally clean.
- Do not soak the treated area in water. You can shower as normal but keep the area out of the shower spray the best you can and do not let the area stay wet for more than a few minutes.
- No bathing, swimming, saunas, hot tubs, tanning, or intense exercise.
- Do not disrupt the scabbing process (i.e. No picking, scratching, etc.) All scabbing needs to fall off naturally. If you force or pick a scab off you will disrupt the process and possibly cause scarring.
- Treat area with TLC. Do not do anything at all that could cause issue or problems to the treated area. If you are not sure or have any questions please ask.
- Once all scabbing has naturally fallen off, apply one small drop of Vitamin E Oil (provided) 4 times throughout the day EVERY OTHER DAY (every 48 hours) for a minimum of 4 weeks, or until next lightening session. DO NOT start applying the Vitamin E Oil until all scabbing has completely fallen off. It is our goal to keep the area as dry as possible until all scabs have naturally fallen off.
- It is important to the process and integrity of the skin that a full 10-12 weeks of healing take place before another lightening session can be done. No exceptions.
- Lightening and/or removing unwanted pigment is a long process and patience is required. Please be patient and give the process a fair chance to work. Expect visible and wanted results in 3 to 6 sessions. How many sessions needed will depend on how saturated the pigment is, how deep it was implanted and how much needs to be removed for the desired result. In many cases only a percentage of the density needs to be lightened/removed and then we can continue the correction process by color correcting. In those cases where we have pigment misplaced or in an unwanted area, color correcting will not be an option and removing as much of the pigment as possible will be our ultimate goal.

FAILURE TO FOLLOW AFTER-CARE INSTRUCTIONS MAY
RESULT IN INFECTIONS. RESULTS CAN NOT BE FORESEEN, PREDICTED, OR GUARANTEED.

TOUCH-UP

Keep in mind after that some intensity of color will be lost, and/or the color may heal unevenly. This is normal for some procedures, especially after the initial application. This is the reason for the follow up appointment – to fill in any light areas, to go a little darker or thicker if desired, and to adjust shape or color if needed.

- FREE – after initial appointment with in the first 3 months
- \$50 – within the first 3 months after any other appointment
- \$75 – within 6 months of appointment
- \$100 – within 9 months of appointment
- \$125 – within a year
- After a year, touch-ups are \$150 for the first hour and half and \$25 each addition half hour

****There is a \$50 non-refundable reservation fee to secure your appointment that will be deducted from the total amount due at time of appointment.***

****Pricing subject to change at any moment***

CANCELLATION / NOSHOW POLICY

If you need to reschedule or cancel, a 48-hour cancellation notice is required, or you will forfeit your reservation fee and will have to repay to reschedule. NO EXCEPTIONS, regardless of situation. (If it's your free touch-up you will have to pay \$50 to reschedule your touch-up)
